Daniel AGUIRRE
Jonas PELLEGRINO

Local Arrangement Chair

Jérémy POSTEL-PELLERIN
Mathieu GUERIN

Finance Chair

Rémy VAUCHÉ

Sponsoring Chair

Pierre CANET

Dear colleagues,

We are pleased to announce the opening of the call for contributions for the poster session of the GDR SoC2 2026 conference, which will take place from June 17 to 19, 2026, in Marseille, at Polytech Marseille, located on the Château-Gombert Technopole.

This poster session provides an excellent opportunity for participants to present and discuss recent work, preliminary results, ongoing projects, as well as research conducted by PhD students and postdoctoral researchers. It aims to foster scientific exchange, idea sharing, and collaborations around the following topics:

- High-Performance Embedded Computing
- AMS & RF Circuits and Systems
- Robust, Reliable, and Secure Systems
- Methodologies and Tools
- Connected Systems for Societal and Environmental Transitions
- Future Technologies
- AI and Embedded Systems

Authors are invited to submit an abstract. The template, as well as the submission link, are available on the conference website: <https://gdr-soc2-2026.sciencesconf.org>

Submissions to the poster session will be evaluated by the Technical Program Committee according to the following criteria: relevance of the topic, state of the art, technical content, novelty and originality.

Important dates:

- Submission deadline: **April 24, 2026**
- Notification to authors: **May 11, 2026**
- GDR SoC2 2026 conference: **June 17-19, 2026**

We look forward to welcoming many of you and to fruitful scientific discussions at the GDR SoC2 2026 conference in Marseille.

The GDR SoC2 2026 Organizing Committee - Marseille
